

THE SMART WAY TO MANAGE YOUR HEALTH

Would you like to know how to save up to 50% on your monthly medicine bills?

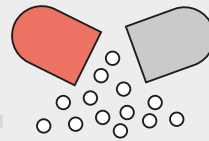

What are generic medicines?

Generic medicines are equivalents of the original medicines.

Generics are manufactured once the patent of the original drug has expired. Generic medicines are not fake.

300,000 diabetes and hypertension patients take cosmos medicines daily.

Analysed and approved by regulators to ensure it is as effective as the original drug.

European PICS approved manufacturing facility and a supplier to USAID.

 As effective as the original

 Same active ingredients

 Same dosage and strength

Strict quality control, no compromise attitude.

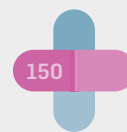

Save up to 50% on your monthly medicine bills or insurance premium.

Switch to Cosmos
